

I am totally thrilled that you wish to share your work with Pretty & Punk Weddings, thank you so much! Genuine happy dances happen when we receive submissions and I am always in awe of our wedding communities talent. We have a few guidelines which we ask that you follow and would really appreciate your co-operation on these.

- Please may you respect a 2 month window of exclusivity around your feature with Pretty & Punk Weddings – if your work has been previously featured we will hold your feature date until 2 months after this date, and ask that you do not feature anyone else for the same length of time. You are able to include your images on your website prior to any feature with us.
- You are able to share 3 or 4 of the same images within your team on your social medias saying that it will be due to be featured on @prettyandpinkweddings.
- Please see our featured suppliers form at the end of this document to be complete with all correct social media handles, website addresses and business names. If any tags are incorrect we cannot guarantee any corrections can happen quickly and as we believe credit where credit is due, we'd much prefer all suppliers get the credit for the work carried out.
- Don't forget to use your featured badge on your website and social medias, there are a variety to download on our media page and we ask kindly that the featured badge links back to your blog feature from your website. We'd also REALLY love if you could use our #prettyandpinkweddings on Instagram and Facebook.
- If you would not like any images from your submission to be used throughout the website or on additional advice articles please do state this on your submission.
 - Please can all images submitted by web-sized. We do not feature black and white images and would appreciate a mix of portrait and landscape images.

Thank you again for your submission and we look forward to sending you your publication date!
